Technical Data Sheet

REV 00 of 20.10.2012

FINISHING SPIRIT

DESCRIPTION:

Special Degreaser for shellac finishing. Used after application of shellac polish, it is essential to facilitate uniformity and polishing of the substrate by removing residuals of the special polishing oil, Bio-Polieroel.

CHEMICAL/PHYSICAL CHARACTERISTICS:

Form:	Liquid
Colour:	Amber
Odour:	CCharacteristic
Flash Point:	> 21°C
Solubility:	Shellac 99° – Shellac 100°
Specific Gravity (20°C):	0,760 Kg +/-3

HOW TO USE:

Completed the spreading of shellac polish, when the surface is dry, pour the degreaser on a non-peeling cloth (flax). With the cloth well moistened, gently polish without excessive pressure on the support, just to remove the residual greasiness. Repeat several times until the total cleaning, by checking that each next step the surface is dry as to avoid excessive surface removal.

PACKAGING:

The product is available in 500ml, 1Lt and 5Lt cans.

STORAGE:

Store in a dry, well -ventilated area away from heat and direct sunrays. Keep away from any source of flame or spark. For professional use.

WARNINGS:

Attention: using the product without any care can compromise the finishing. Our data sheets are prepared on the basis of average performance of our tests. However, our technical advices are given in good faith but without any warranty. In fact different supports, conditions of application, industrial plants, dilutions are determinant for the final result, and are often beyond our control. The user must try the product to see if it is suitable for his needs. We will ensure the continuity of the chemical-physical characteristics.
